EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David L. Garrison on 9 November 2005.

The application has been amended as follows:

In the specification:

Pg 14, Para [0062] 4th line, add the number --82-- after "ears".

Pg 14, Para [0062] 6th line, add the number --82-- after "one hinge ear" and again after "other hinge ear".

Pg 18, Para [0075] 2nd line, add the number --13--after the word "lip".

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure 8, the reference number 13 is added to point to the "lip extending into the interior" as claimed in Claims 9,14, &19. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

In regard to Claims 1 & 11, the prior art does not teach or suggest a port light as claimed comprising an exterior frame or spigot configured for insertion into a hole in a vessel wall and an interior frame on the opposite side of the hull configured to be place over the exterior frame or spigot.

In regard to Claim 22, the prior art does not teach or suggest an adjustable hinge for a port comprising a tubular hinge having a threaded hinge post extending at a right angle from the exterior of the tubular hinge member and threadedly engaged with an adjustment nut that is within a recessed area of an interior frame.

In regard to Claim 23, the prior art does not teach or suggest an adjustable latch for a port light comprising a latch adjustment post threadedly engaged with a latch adjustment nut retained in a recessed area of an interior frame and latch-locking nut and the latch can be adjusted upward or downward relative to the interior frame.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
